## ABOUT ME

I'm a Data Scientist who loves logic and philosophy. In addition to being a very analytical person, I have a childhood passion for solving puzzles, and this had a huge influence on my choice for Data Science, as this is how I look at my projects.

## SKILLS

## LANGUAGES

## EDUCATION

### Data Architecture - Specialization

Data Science Academy (DSA) - start: 06.22 | end: 08.23

### Data Science and Analytics - MBA

Universidade de São Paulo (USP) - 06.21 to 12.22

### Mechanical Engineering - Bachelor's degree

Universidade Federal de Viçosa (UFV) - 01.12 to 01.19

### Exchange Program in France:

Institut Français de Mécanique Avancée (IFMA) - 06.14 to 06.15

## WORK EXPERIENCE

### Grupo Petrópolis (beverage industry)

#### Manufacturing Coordinator - 10.21 to present

Leader of two teams with the best productivity KPIs in 2022, in the company's largest Manufacturing Unit;

Member of the Lean Manufacturing Committee - 7.5% reduction in returnable bottles loss with a PDCA project.

#### Trainee Program - 03.19 to 10.21

Development of the central Dashboard of KPIs and master activities of the Industrial sector, using VBA;

Auditor of TPM (Total Productive Maintenance) and 5S.

### Klabin S/A (paper industry)

#### Project Manager (internship) - 01.18 a 01.19

Responsible for technology projects, including:

Fuel saving technologies for a fleet of 400 trucks. Savings obtained: 7.1% (R\$ 6 million/year);

"Virtual Reality for safety training": creation of the technical scope (hardware and software) and implementation.
